NOTE: DXLD was suspended after the issue 19-44 of October 31, 2019,
as the workload and time necessary to compile it became unsustainable.
The WOR iogroup https://groups.io/g/WOR continues to publish most of
the material that would have been in DXLD, just not compiled into
weekly issues. And still is the source material for most of the info
voiced on WORLD OF RADIO.

My own logs however, soon started from early 2020 to be compiled into
Weekly Roundups: http://worldofradio.com/Hauserlogs.html
